Board Minute 2.2 Undelivered Lease

Introduction

The final step towards completing the registration of our lease should have happened in 2018 and its completion is LCR's responsibility under the terms of our lease with FLS. The initial delay arose from FLS's inability to produce the final lease drawing due to circumstances outwith their control. This aspect was resolved, and the registration process proceeded via Registers Scotland but remains incomplete.

This is an entirely unsatisfactory position which needs to be resolved ahead of the proposed land purchase.

**Recommended action** 

A Board member take this forward directly with our MSP. Maree Todd has the background papers on our dealings with FLS and our request should be for her to assist in bringing the lease registration to an immediate conclusion.

The FLS Complaints Procedure

The procedure here is relatively straightforward. However the issues are complex and varied. Experience tells us we will be going over old ground with a direct complaint to FLS and this approach is not recommended. The referral to Maree Todd was to highlight the serious difficulties for small community groups in dealing with FLS. More importantly,, the FLS commercial strategy is essentially a "one size fits all" approach which fails at several levels.

## **Recommended Action**

LCR seeks a follow up meeting with Maree Todd to discuss the way forward to address the wide ranging problems raised. At their heart are major issues which impact negatively on the social and economic viability of rural communities. Also a discussion on the issues with HIE may be appropriate.. We should decide on how best to do this under the leadership of a specific volunteer.
